Vitae, is an international programme led and managed by CRAC, a not-for-profit registered UK charity dedicated to active career learning and development. Working in the UK since 1968, when we ran our first project to support transitions of doctoral researchers to industry, Vitae has great expertise at enhancing the skills and career impact of researchers locally, within a global context.

We work in partnership with UK and international higher education institutions, research organisations, funders, and national bodies to meet society's need for high-level skills and innovation.

Vitae aims:

- **Influence effective policy** development and implementation relating to researcher development to build human capital
- **Enhance higher education** provision to train and develop researchers
- **Empower researchers** to make an impact in their careers
- **Evidence the impact** of professional and career development for researchers

Vitae and its membership programme is led and managed by CRAC: The Career Development Organisation.

Further information on our activities with HEIs, researchers and employers may be found on this website, [www.vitae.ac.uk](http://www.vitae.ac.uk)
